PROFESSIONAL SUMMARY

Full Stack Developer with a strong foundation in frontend and backend technologies. Currently working as a Full Stack Development Intern at DVertex, gaining hands-on experience in building responsive web applications. Skilled in creating clean user interfaces, integrating APIs, working with databases, and continuously learning modern technologies to build practical, user-friendly solutions.

EXPERIENCE

Full Stack Development Intern — DVertex

Current Internship

- Contributing to full stack web application development across frontend and backend modules.
- Building responsive interfaces and reusable components for real-world projects.
- Supporting API integration, debugging, feature implementation, and database-connected functionality.
- Collaborating with the team to improve usability, code quality, and overall application flow.

PROJECTS

1 Star Test System

Built a web-based online examination and result management platform with secure authentication, admin dashboard, question management, evaluation, and performance analytics.

Tech: Django, Python, MySQL, HTML, CSS, JavaScript

2 Merit Tracker

Developed a student performance and merit analysis system that calculates rankings, generates merit lists, and visualizes academic progress.

Tech: Flask, Python, MySQL, Bootstrap, HTML, CSS, JavaScript

3 Personal Portfolio Website

Designed and developed a responsive personal portfolio website to showcase projects, skills, and achievements with clean UI and structured content.

Tech: HTML, CSS, JavaScript, React.js
